# PET DOGS READY TO RECEIVE QUAY GIVEN TIME THEIR MANY ADMIRERS TO-DAY TO DIGEST TURK

MRS. WALTER STANTON

PRESIDENT

Till Monday by Request of His Attorney.

TO DECIDE HOW TO PLEAD. \$

As Demurrer Was Hastily Drawn They May Move to Quash Indictments.

Philadelphia, Nov. 23.-The Quay conspiracy case, which was scheduled to come before the Court of Quarter Sessions to-day, was, after half an hour's discussion by counsel and Court, adjourned by Judge Fin-

The defendants, United States Senator Quey, his son, Richard R. Quey, and former State Treasurer Benjamin J. Haywood, were all in court. Their counsel outlined their probable course, saying that demurrer had been hastly drawn and a move probably would be made to quash the indictments, which were alleged to be faulty. Additional time was asked by the

And Sight Restored.

I am a graduate of Oberlin College, taught by enough after I graduated to have them give me the Honorary degree, and I have a great many acquisintances in and around Roson. About three years ago my son brought home a box of Children (ointment), and I picked up the circular that was around it, and learned about the Children Soar, and told aim to get me a cake. When I got it, the circular advised its use for the bath, teeth, scalp, etc. I had been a great sufferer all my life from sore cyclids; the whole lid outside and in was red as a leet. I had to sit in a dark room, evenings, for eight and a half years, and wear thack spectacles to keep the sun from my cyes in the daytine. When I got the Curtuma Soar, I got a fine, soft cloth, dipped it in hot water and rabbed it on the soap and washed my cyes with it. I can't tell you how much good it has done me, although it smarted very much at first. My eyes are as clear and bright as when I was a young lady. I had to go backwards in getting spectacles and wear No. 15, the same as I did twenty years ago, I can read medium sized print in daylight without any spectacles. As a matter of course I am kind of a walking advertisement of Curticua. People will call to me when I am going along the street and tell me how much good my Curicuan Soar has done their eyes.

Mrs. M. R. CONGDON,

29 We take pleasure in publishing this testimonial as showing the interest taken in Curricust Hammires, and the various uses made of them not anticipated or suggested by us. We cannot, of course, anticipate how Curricusta Soar will work in cases similar to the above, but to those who desire to try it we would suggest beginning with a very weak solution or "saids" of warm water and Curricus Soar until its action is determined. For inflamed, granulated, or ecrematous cyclids, light applications of Curricusa continent will in mos cases be found to work wonders.
